

Canada Express Entry Points Calculator

In order to get Permanent Resident (PR) visa to Canada under the Express Entry System as a skilled worker, one must score at least 67 points in the Federal Skilled Worker stream. This does not mean that if you manage to get 67 points you will get the PR visa. This means that if you get less than 67 points you are ineligible to apply for the PR visa to Canada under the skilled category of Express Entry System. Given the competition that is there to get PR Visa to Canada one needs to score much higher than 67 points to actually get a visa. The more the points you are able to score in the Federal Skilled Worker stream the more your chances of getting the PR Visa. The expert consultants of ISA Global can help you in maximizing your score in this stream.

In the Federal Skilled Worker stream points are given on the following four parameters:

1. Core/ human capital factors.
2. Spouse or common-law partner factors.
3. Skill transferability factors.
4. Bonus points.

The more the points you score on each of these parameters, the more will be your chances of getting the coveted PR visa to Canada under the skilled worker category. One cannot score the maximum points possible on these four parameters without taking the guidance of an expert immigration consultancy. There are very few reliable and expert immigration consultants in India. One should act very carefully while choosing an immigration consultant. ISA Global is the only immigration consultancy which is promoted by alumni of IIT Delhi, IIM Calcutta and MIT Boston. ISA Global is an extremely reliable immigration consultant.
